# Welcome to Symnet

Hello, I'm proud to present you a simple database.

Symnet is a free database, where you can find informations.

It's like the internet but because you copy it from a Usb-stick ,

after that you can have all the information even offline.

The minimum requiredments are: A desktop-pc, notebook or laptop with at least 20 kb free storage and Windows 95.

Well I hope you can enjoy this database.

Stay tuned for any new versions :)
